November 2022 Newsletter

Meeting Date: Saturday, November 5, 2022
Time: 10:00 AM
Place: Prospect Library Community Room
17 Center Street, Prospect, CT

President's Message:

Greetings Members,

Fall is upon us with all its glory and the dahlias are still blooming here! The weather pattern has been like the rest of this crazy growing season; unpredictable and frustrating! The temps this week felt more like summer and much needed rains have helped ease some of the drought we've experienced.

The time to start cutting down the dahlia garden and digging up the roots has arrived! Lots of work over the next couple of weeks to ensure the dahlia roots are divided and stored for their winter rest.

Our November meeting will have some examples of dividing and storage of dahlia roots for those of you who have questions about how to or have not had great success in storing your roots over winter. Please come and bring suggestions or examples on how you store your roots over winter or problems you have getting your roots to stay healthy until spring.

Hope to see you on Saturday!

Sincerely, Kevin

Sources for Dahlias:

dahliaaddict.com

This is the site that you can use to look up the name of any variety you are interested in growing. It lists who sells the dahlias and allows you to compare prices among all sellers. This site covers commercial growers as they begin to open for 2023 in November and December. Some are open now, and information is kept current as the season progresses.

CDS Meeting Dates:

Dec.(TBD) Holiday Party, San Marino
